\*Note: While persons of Hispanic origin can be of any race, the majority of youth of Hispanic origin are reported in the White race category.

According to the "Easy Access to Juvenile Populations" data set, Puzzanchera, C., Sladky, A. and Kang, W. (2011),

approximately 87 percent of youth age 10-17 of Hispanic ethnicity in 2010 and 2011 were reported in the White race category.

**Note: 2011 Juvenile arrest data should not be compared to previous years' data due to the conversion from Summary UCR to NIBRS reporting and the inaccurate trend in the "all other offenses" category.**
